

NANTAHALA NATIONAL FOREST
TUSQUITEE RANGER DISTRICT
UPPER TELLICO OHV AREA

THIS PROJECT IS DEDICATED TO D.A. YOUNG

As usual, we had a large turnout of folks to help clean up the area. We worked from the state line at the end of the pavement up the river, and all ohv trails, for a total of about 40 miles. We accumulated 2 pick up truck loads, and 1 F-450 dump truck load, for a total of about 4200 lbs.

This cleanup day is dedicated to D A Young, an avid OHV person who loved the area, and has gave us many hours of hard work, not only helping cleanup, but a lot of construction, welding, etc. The Forest Service values work of people like this very much. Thanks, D A.

I hope all the folks whom I misspelled their name will forgive me, I made an effort to get it right, but I know some are not spelled right.
